

Bring your people closer together through algorithmic networking

Use today's premier match-making software to unlock your organization's true potential.

zenvoy
Expand your Network

Supercharge your people's engagement with intelligent 1-on-1 introductions!

Let Zenvoy help your people engage with your organization and each other. Design and implement an A.I. driven online community to help your people build their professional, social or internal network.

Design custom A.I. introductions to meet your peoples' needs!

Whether it's helping your people find new business opportunities, implement best practices, or just share their experiences, Zenvoy's unique matching algorithms drive quality peer-to-peer introductions that enable your people to get the answers and information they need while reminding them of just how valuable your organization really is!

Easily automate intelligent, 1-on-1 introductions by asking the questions that matter most to your people.

Your people already have too much on their plate! Create an automated way for them to connect with other peers who share similar backgrounds and challenges.

- ✔ Design an A.I. matching engine that makes quality introductions.
- ✔ Set the tone for great member connections by creating matching questions that identify and fulfill their needs.
- ✔ Help your people meet colleagues who have the answers they need.
- ✔ Eliminate time consuming searches for unhelpful connections.

Create & customize your own A.I. powered networking algorithm.

You know your people best, choose how to introduce them. Each community you create on Zenvoy utilizes its own A.I. powered matching engine- designed by you! Your algorithm constantly determines how best to introduce your users.

- ✔ Prioritize introductions by topic, location, experience, etc.
- ✔ View and download valuable networking statistics
- ✔ Make changes to your matching engine at any time.

Host a white-labeled online networking community to fit your needs & brand.

Let Zenvoy help you create a uniquely branded online networking community for your usership that ensures meeting the right colleagues is never left to chance!

- ✔ Choose your colors, upload your logos, pick your URLs & even include your advertisers/sponsors.
- ✔ Single sign-on support & no app download required!
- ✔ Interface with user profiles, messaging, posts, news & more!
- ✔ We can get your community up and running in less than a week.
